**BPI® Designer Lens Displays**

BPI® Designer Lens Displays are fabricated from durable, lightweight aluminum finished with a fused white nylon finish or injection molded plastic. They attractively display the tint of the lens for your patients. They can be used with lenses up to 71 mm in diameter and are available with or without lenses. Lens Rings are included with the displays. (Except Cube, Lens Book and Lorgnette Displays). Additional lens rings are available in packs of 25.

**BPI® 71 mm PLANO LENSES**
